DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed December 1, 2003 has been submitted for consideration by the Office. It has been placed in the application file and the information referred to therein has been considered.

Allowable Subject Matter

1. Claims 1, 3-5, 7-8, and 15-16 are allowed.

2. The following is an examiner's statement of reasons for allowance: This invention deals with an insulated electrical conductor comprising a first layer applied to said conductor, and a second plastic layer sheathing the first layer, wherein the first layer is made of at least two longitudinally introduced tapes containing at least one of glass and mica, which are applied to the conductor, wherein the width of said longitudinally introduced tapes is selected such that each of the at least two longitudinally introduced tapes overlaps itself by at least 50% (claims 1 & 16). The above stated claim limitations, are not taught or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments filed November 13, 2003 have been fully considered and they are persuasive. Specifically, the applicant's argument that LaGase ('255), Arroyo et al ('842), nor any of the cited prior art, teach or suggest an insulated conductor having two longitudinally wrapped tapes having an offset of 180 degrees or an overlap of 50%, is persuasive. The applicant also argues that the above claim limitations are not inherently present in either of the above prior art references, which is also persuasive. While Arroyo clearly teaches a 50% overlap for two helically wrapped tapes, Arroyo is silent as to the percent of overlap the longitudinally wrapped tapes may have. Absent this specific limitation, the claims have been allowed.

Communication

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Mayo III whose telephone number is (703) 306-9061. The examiner can normally be reached on M-F 8:30am-6:00 pm (alternate Fridays off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on (703) 308-3682. The fax phone number for the organization where this application or proceeding is assigned is (703) 305-3432.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
